

PROGRAM OVERVIEW

The Asset Integrity Management (AIM) program aims to provide both practical and theoretical aspects of AIM and the AIM can be implemented in the asset intensive industries to achieve operational & asset maintenance excellence. The certification program focuses on various asset maintenance strategies and practices in Oil & Gas Industry and explains the digitization strategy for asset maintenance in the industry.

The subject program content is completely based on the industry-wide best engineering practices and provides interactive learning environment with case studies.

The program offers a structured 6 modules on the topics such as Asset Maintenance (AM) Contributing Factors, Asset Integrity Lifecycle, AM Strategies, AM Best practices, Asset Integrity for Process Plants & Gas Pipelines, Asset Integrity Review Process

Major Topics to be Covered

- ASSET MAINTENANCE - CONTRIBUTING FACTORS
- ASSET INTEGRITY LIFE CYCLE
- ASSET MAINTENANCE STRATEGIES
- STANDARDS
- ASSET INTEGRITY INSPECTION
- SAFETY CRITICAL ELEMENTS
- PIPELINE ASSET INTEGRITY MANAGEMENT
- HEALTH ASSESSMENT OF EQUIPMENT

Whom to Attend

Intended for Managers, Supervisors and Technicians

The program is for asset maintenance practitioners from the following areas: -

- Engineering
- Maintenance
- Operations
- Health, Safety, & Environment
- Inspection
- Integrity Management

The program is for the

- Oil & Gas
- Petrochemicals
- Chemical
- Refineries
- Power & Utilities

REGISTRATION & ENQUIRY

Dr R.S. Velmurugan, General Manager (Training)

**GAIL Training Institute, Noida, India
+91 9818866480**

Email: rs.velmurugan@gail.co.in

PROGRAM FEES

**INDIAN DELEGATES
INR 10,000+ GST (Per Participant)**

**FOREIGN DELEGATES
150\$ + TAXES as applicable (per participant)**

TRAINING SOLUTIONS

- Online Virtual Classroom Sessions through MS-Teams equivalent to Training Days
- Customized program to suit individual

Gail Training Institute

**Solutions
to
Learning & Development in Oil & Gas Industry**

GAIL Training Institute

Annually conducting over 300 Professional Training Programs to commensurate with functional requirement of the Industry Professionals

World-class Training Centre

- Leading Training Institute in Natural Gas and beyond...
- Practical exposure to various facets of Gas value chain under one umbrella (NG pipelines, Gas processing units, Petrochemical plant, LPG pipeline, CNG/PNG supply, SCADA, Telecom etc.)
- Highly qualified and experienced faculty.
- Successfully provided training on CGD Business to executives from companies like IOCL, OIL, Assam Gas Company, Gujarat Gas Limited, Bhagyanagar Gas Limited etc.
- Computerized references and Library System
- State-of-the-art infrastructure & classrooms at Noida and Jaipur with residential facilities

An ISO 9001:2015 Certified Institute
Authorized Training Provider for
American Society of Mechanical Engineers (ASME)
